

PROTECT YOUR EMPLOYEES FROM HEAT STRESS

COOL VEST AQUA

COOL COMFORT IN HOT WEATHER

Stay Cool, Stay Safe

FREEDOM Evaporative Cooling products offer the latest innovation in personal cooling

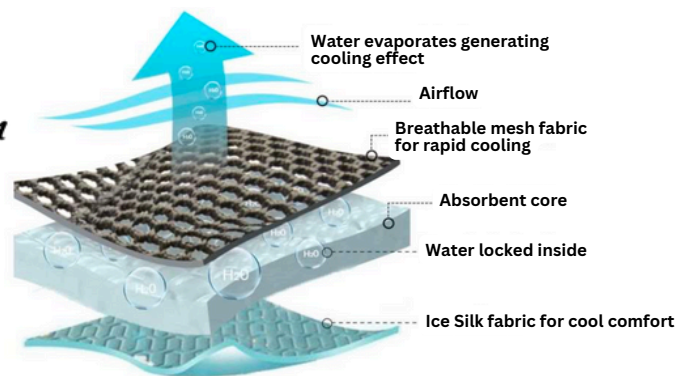

The unique 3 layer fabric composition to achieve **rapid absorption, stable water retention and enhanced evaporation.**

The special Evaporative Cooling material **absorbs and slowly releases water** through evaporation, lowering skin temperature and protecting the wearer against heat stress.

Users can expect the evaporative cooling fabric to provide temperatures that are **10-15 deg cooler** ** than the ambient temperature, depending on airflow.

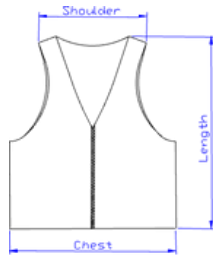

The Ice Silk inner lining offers supreme skin feel and can absorb sweat keeping you comfortable

Just **immerse in water for 1-2 minutes** & gently squeeze out excess water to activate

COOL VEST AQUA
FCVA-HVR01

Size	Shoulder	Chest	Length
M	405	460	560
L	428	480	580
XL	445	500	595
XXL	462	520	610

- Simple V-neck w/ zipper closure
- Stretchable side panels for good fit
- Colour: Hi Vis yellow
- Light weight & simple to use
- Strategically positioned cooling panels for high efficiency cooling
- Ice silk inner offers supreme hand feel and moisture wicking while mesh outer enables enhanced evaporation

** High humidity (90%) will diminish the fabric's ability to evaporate water and therefore provide cooling. Evaporative cooling products work best in dry heat conditions with air flow. For further details visit manufacturer website <http://www.techniche-intl.com/>
