

SUPER EVAPORATIVE COOLING TEXTILES

SOAK IN WATER
Just soak in water for one minute.

GENTLY SQUEEZE OUT EXCESS WATER

ENJOY IMMEDIATE COOLING

The Bodycool Xtreme is developed to fit tight around your body and give the ultimate cooling effect. Using this extreme cooling shirt is a fast and easy way to beat the heat and stay fresh and cool at work, during sports and at leisure.

The INUTEQ-PVA® evaporative cooling technology is a highly absorbent Polyvinyl Alcohol Fabric.

Activation is easy. Before the first use soak the product in warm water for one minute and let it dry completely. Then soak the product again in clean water for one minute and gently squeeze out any excess water. Your Bodycool Xtreme is now ready for use, and will keep you comfortably cool for several hours.

- Will cool you down for several hours.
- Machine washable

These products perform best in low to medium humidity environments where airflow can reach the body. The level of airflow determines the cooling effect.
