

Product Data Sheet

Product Code: 6529EU (Cooling Vest)

COOLING VEST

The Lightweight Cooling vest SKU 6529 EU a lighter version of the original cooling vest. This is the lightest and most economical vest ever to come from TechNiche.

Place in water for 2 minutes remove excess water and wear. The Super absorbent polymer fibre will soak up 20 times its volume in water and slowly release via evaporation over 5/10hrs. This product is tough and durable, delivers constant cooling to the wearer and ideal for anyone working outside in hot conditions.

POWERED BY

This product uses evaporative technology called **HYPERKEWL™ PLUS**
