

PROTECT YOUR EMPLOYEES FROM HEAT STRESS

# COOL VEST FLO

COOL COMFORT IN HOT WEATHER

## Stay Cool, Stay Safe

**FREEDOM** Circulatory Cooling products offer the latest innovation in personal cooling

Multi layer medical grade TPU composition for **water proofness, stable water flow and extended cooling duration**

Specially designed water channels **circulates chilled water through the vest** enabling heat transfer. This technology is **not affected by humidity or by lack of air flow**

Users can expect the vest to maintain temperature **between 20°C to 25°C** (subject to environment conditions)

The **Ice Silk** inner lining offers supreme skin feel and comfort

Just **add 400ml water + ice pack, connect the power bank and switch on** for long lasting cooling

**COOL VEST FLO**  
FCVF-HVR01

- Simple V-neck w/ buckle closure
- Stretchable side adjustment straps for good fit
- Colour: Hi Vis yellow
- Light weight & simple to use
- Integrated water channels and reservoir for efficient cooling
- Supplied with 2 X ice packs + 5000mAh power bank
- High efficiency mini pump with 3 speed settings
- 2 X zipper pockets
- Reflective tapes
- Sizes S/M, L/XL

### Size chart (mm)

Size	Shoulder	Bust	Length
S/M	350	380	500
L/XL	400	460	600
