

COOLING GAITER / MASK SUMMER BALACLAVA

STAY SAFE IN THE SUN

DID YOU KNOW?

Outdoor workers have a **high risk of skin cancer** due to repeated and prolonged sun exposure.

You need sun protection even if it is cloudy or cold.

90% of skin cancers occur on **parts of the body not usually covered by clothing** - the face, hands, forearms and ears.

Sunscreen lotions may offer limited protection due to excessive sweating and the need for constant re-application.

Heat stress can reduce concentration and prolong reaction times, increasing risk of accidents
